CLASSIC AUTO SUPPLY CO., INC.

CASCO HISTORY - A FAMILY TRADITION

It didn't start out to be a business. We didn't buy a building, slap a sign on it and announce to the world "Here we are - buy your T-Bird parts from us" nor did we even start out as a planned business venture. Bill Brown was an engineer and product manager for GE. However, he was also a "car nut" and enjoyed working on cars. At the suggestion of his wife Sue, Bill purchased a '57 T-Bird that needed a lot of work. This was in 1968. As the restoration process progressed, Bill found that there were many parts that he needed that weren't available for his own car, and as a service to other T-Birders he found sources and had these parts reproduced. At that time, there were few T-Bird parts vendors and Bill only reproduced parts that were not available elsewhere.

The parts inventory grew and began to consume every available nook in Bill & Sue's house. The glass production took over the garage, Sue's oven was being used to bake grommets, and a makeshift order processing center was set up among the parts in the basement. It soon became clear that either the T-Bird parts would have to go or Bill and Sue were going to have to move. So in 1975, after quitting his position at GE, Bill purchased the buildings of an abandoned lumber company and CASCO moved to its present location. As the business grew, more and more parts were manufactured by CASCO's growing force of craftsmen. CASCO manufacturing now covers over 3000 square feet and includes manual and CNC milling, turning, cutting, bending, punching, and welding machines.

In 1979, after having a bad experience with a restoration facility on Bill's '66 Bird, Bill & Sue decided to open their own restoration business. This turned out to be a double benefit because the restoration work became an in - house application lab for testing and improving the parts being developed for sale.

Today, CASCO is managed by Bill and Sue's son Jim and his wife Betsy. The family tradition of integrity and service continues. Over 3500 items are listed in this catalog and our 13 employees are ready to serve your Classic T-Bird needs.

CREDIT & DEBIT CARD ORDERS

When an order is initially placed, we perform a pre - authorization on your credit card for an amount sufficient to cover any potential charges associated with your order. This pre - authorization allocates a portion of your line of credit towards the purchase from us. Due to the restrictions of credit card processing, the pre - authorization amount is normally slightly higher than the exact order amount that is finally charged to the credit card. The exact amount is charged to the credit or debit card at the time the order is shipped from our facility. If we do not use the pre - authorization for some reason, (order cancelled, item sold out, etc.) the pre - authorized amount will be restored to your credit card's line of credit in the amount of time determined by the issuing bank. The card issuing bank may hold the original pre - authorization amount for some period of time even after we have already charged the card. Please contact your bank to find out what their policy is with regard to releasing your funds on a pre - authorization. Only your bank can decide when to release that amount back to your account.

Please note or advise if you *do not* wish to have items backordered. Backordered items will be sold at the price in effect at the time of shipment. Shipping charges will be added to each shipment, including any backorders, as shown below (12% of backorder subtotal - \$10.00 min. and \$35.00 max.).
